The National Institute for Theoretical and Computational Sciences (NITheCS)

Implementing the National Institute for Theoretical Physics (NITheP) transition to the novel National Institute for Theoretical and Computational Sciences (NITheCS) has begun. Next to Theoretical Physics, the novel Institute will support research, training and engagement for Mathematics, Statistics, Astrophysics and Astronomy, Bioinformatics and Quantitative Biology, Quantitative Finance, Earth System & Climate Modelling, and Data Science. The talk will describe the roadmap and the implementation plan of NITheCS.
